DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 5, 6 and 10-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kamikubo for reasons of record in the Office Action dated 09/08/05.

Response to Arguments

3. Applicant's arguments filed 03/13/06 have been fully considered but they are not persuasive with respect to claims 5, 6, and 10-18. Regarding claims 1-4 and 7-9, applicant has perfected the claims for foreign priority and, accordingly, Kamikubo is not available as prior art against these claims. Kamikubo continues, however, to be available as prior art against the other pending claims, since these claims are not properly supported by the foreign priority document.

Art Unit: 1775

4. Regarding applicant's argument that the specification contains evidence demonstrating that the present claims are patentable over Kamikubo, these arguments have been considered but are not found to be persuasive. The proffered evidence is not commensurate in scope with the claimed invention. Accordingly, applicant's arguments regarding this evidence are unpersuasive. Accordingly, claims 5, 6 and 10-18 continue to be rejected over Kamikubo.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
